

```
#!/usr/bin/env python3
```

```
"""
```

محاكي جهاز مراقبة حسّاسات ذكي -

مزایا:

- محاکاة اهتزاز وحرارة وصوت مع سيناريوهات

- تحليل المخاطر وتصنيفها

- تسجيل نتائج إلى CSV وConsole

- إحصاءات ملخصة بنهاية التشغيل

تشغيل مثال:

```
python3 simulator.py --duration 60 --interval 1 --scenario random --csv output.csv
```

```
